MITSUBISHI PENCIL

uni Super Ink™
Secure your signature with uni Super Ink™
uni Super Ink™ is a pigment ink that offers outstanding levels of water, chemical and light resistance.

Light Resistant
Will not fade...
Large ink particles make it resistant to UV rays. Will not fade under exposure to light.

Water Resistant
Will not wash off...
The pigment ink bonds to the paper ensuring it can't be removed with water or acetone.

Time Resistant
Will survive the test of time...
The strong molecular structure means it will not break down from sunlight and air.

When security matters...Secure your signature with uni Super Ink™.

uni Super Ink™ is pigment ink that's permanent once it's dry. This means that your signature is secure. Important information or legal documents can't be changed and your signature can't be removed. uni Super Ink™ offers outstanding light resistance, water resistance, bleaching resistance, ammonium hydroxide resistance, hydrochloric acid resistance, ethanol resistance and erasure resistance.

Permanent. Waterproof. Fadeproof. uni Super Ink™

Look for this logo with pens containing Super Ink™
